

The Patidar Gin Science College, Bardoli

7.3.1 –The performance of the institution in one area distinctive to its vision, priority and thrust.

The vision statement of the college states that we "...strive for academic excellence by exploring the potentialities of economically weaker sections...". Accordingly, we duly focus upon it while carrying out each and every development in the college. As far as the students admitted in the college are concerned, most of them are from the economically poor background. As per the student profile, more than 55 of the students are from ST category. Although the college is located at the Taluka place, since the inception of college, the majority of enrolments of students have been from the surrounding Tribal area. The college is very much conscious about the needs of these students and accordingly always strives for academic excellence in order to enable these under privileged students for the global competitions. The academic excellence is reflected in the facilities that we have created over the years for such students: Our College imparts conventional education for UG. The college runs the streams of Science. The college has well equipped labs for all the programmes concerned. The faculties are very well qualified having good amount of research and experience. Some students enrolled for Research work in Mathematics and Bioscience department. There is a specious library with e-reading section and it has been partially automated. Motivating students to actively involve themselves in the NSS and Sports activities. To conclude, the college always take care of its vision, priority and thrust while initiating any development on the campus.
